Re: Draft Joint Patent Application

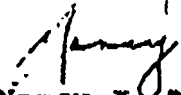

Dear Paul:

As you know, I recently sent Dr. Harris a draft joint patent application relating to vinylsulfone. Enclosed are revised claims for that draft application. After I receive answers from the scientists regarding technical questions, I will revise the specification and further revise the claims, if necessary. Upon completion of the revisions, I will send you the revised application for your review.

I look forward to further communication.

Sincerely,

SYNERGEN, INC.

  
Nancy J. DeSantis
